

MONEYSURFERS: THE NEW PARTNERSHIP WITH OPISAS

15 February, 2022

Est. Reading: 1 minute

On Saturday, February 5th, OPISAS was guest at the launch event of the Moneysurfers Investors Club, held in Milan, at the Westin Palace.

The Moneysurfers Investors Club

The Moneysurfers Investors Club was born from the will of its founders to share with the members their knowledge, but also the opportunities in which they chose to invest.

The membership of the club guarantees access to selected investments, private events, a network of contacts with professionals of the sector and much more.

"Being in an Investment Club means having full control over your assets and networking with people with interests similar to yours, with whom you can establish beautiful friendships and authentic, lasting business partnerships."

[from Moneysurfers website](#)

There are three types of assets proposed by Moneysurfers for their Investors Club:

- Real Estate investments
- Luxury goods (Wine, Art, etc.)
- Private equity

The launch event with OPISAS

After a careful analysis of the company, the team of Moneysurfers decided to introduce our U.S real estate investments to their exclusive club.

The event, which took place both in presence and online, counted the presence of 150+ investors.

OPISAS would like to warmly thank the team of Moneysurfers for hosting and inviting us to their event, supporting the beginning of a new **partnership**.
